ing and then click "Register Here".

Andrew attended the J.B. Speed School of Engineering at University of Louisville majoring in Mechanical Engineering. He was passionate about his career choice and was co-captain of the Formula Racing team. He was loved by his family, friends, team members, and professors. When he died in a tragic accident, we established a scholarship in his memory at the University of Louisville. The scholarship will be given to high school students entering the mechanical engineering program. This seemed fitting as Andrew was always helping others. Even in death, he has helped others as he was a registered organ donor. He is missed by many.
